

Application

This open frame rack is designed to rackmount audio/video equipment such as AV receivers, microphone systems, amps, and equipment drawers. The open frame design allows unobstructed airflow and increases accessibility, making equipment installation and maintenance easy. The rack is self squaring, making assembly quick and painless. Optional casters can be purchased separately to allow easy transportation of your rack. A Rack Top is also available separately, which can protect your rack from dust and debris. This AV Equipment Rack meets EIA-310 standards, is UL certified, and RoHS compliant. All hardware is included.
